

TOURRIDER

Time & Date Setting

How to set time

The time of day is set using the display screen to the right of the steering wheel. To set the date and time, you can follow these steps:

- Go to the "Settings" menu.
- Select the "Date/Time" submenu.
- The current date and time will be displayed.
- To change the time, use the arrow buttons on the steering wheel to navigate to the appropriate field including time zone.
- Use the "+" and "-" buttons on the steering wheel to adjust the time.
- Once you have made the necessary changes, press the "OK" button on the steering wheel to confirm.
- The time is now set.

❑ **Note:** pg. 123 in the Operator's Manual

DAIMLER TRUCK

Daimler Buses

How to set Date

❑ **Note:** The date can only be set with a Xentry / Daimler Truck Diagnostic system.

- Connect the vehicle to your Xentry machine and run a quick-test
- From modules listed, select the ICUC and then 'continue.'
- Under adaptations select 'new unit' then set the date and time.

❑ **Note:** while you are not actually replacing the unit all other information such as mileage, etc. should stay the same
