

Mercedes-Benz Tourrider

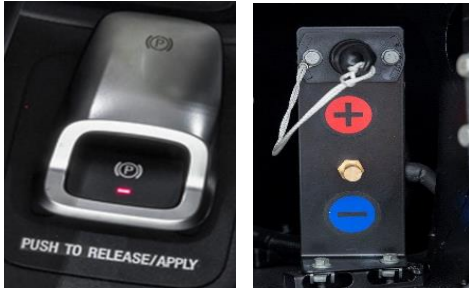

Quick Reference Guide

This guide is only a summary of operational FAQs. Use this QR code to download a digital version of the owners manual

If the coach will not start...

- ✓ Engine door closed
- ✓ Coach in Neutral
- ✓ Parking brake engaged

If the coach needs a jumpstart there are remote posts in the rear fusebox (2) – 24 VOLT ONLY

If the coach will not go into gear...

- ✓ Depress brake pedal
 - ✓ Wheelchair doors are closed
 - ✓ Entrance door closed
 - ✓ Wheelchair switch OFF (not blinking)
- In an emergency, flip up the red switch cover and pull up on the yellow knob to override the safety interlocks*

To activate fast idle...

Push menu button on right side steering wheel

Adjust idle RPM with arrows on left side steering wheel

Entry Door Issues

- If door has no air, press the “DOOR RESET” button to air the door back up
- If the door HAS air but isn't opening, check that the flap over the right side steer axle is completely closed (5)

Activating a parked regen...

- ✓ DPF Filter light must be flashing
- ✓ Ensure rear of the coach is clear - high exhaust temp can cause a fire
- ✓ Coach in Neutral (sometimes need to shift N→D→N→R→N)
- ✓ Hold Regen switch 3-4 seconds until the RPM increases

Maneuverability Tips:

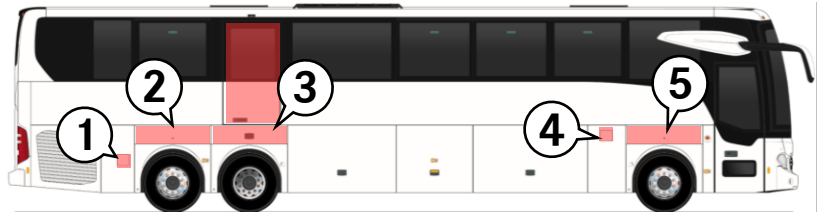

- High/Low Ride switch to adjust coach height
- “HOLD” Function can be disabled via switch

Fueling the coach...

- ✓ Engine off and front door must be unlocked to open the fuel doors
- ✓ Open fuel doors by pushing on the forward side of the fuel door
- ✓ Open both sides to get full fill

1. DEF Fill
2. Rear Fuse Box & Jump Post
3. Wheelchair Lift Doors
4. Right Fuel Fill
5. Front Fuse Box
6. Left Fuel Fill
7. Batteries & Master Switch

Fault Codes & Troubleshooting

Fault codes can be checked through the dash. Code definitions available online or by contacting a Aftermarket Area Manager at 800-206-9728
